

# SOLSTICE suite

**Train harder as you fight harder**

## NETWORK-ENABLED WARFARE TRAINING SYSTEM

Solstice suite is the outcome of long term, successful and close cooperation with the French Air Force (FAF). Combining both L16 simulation facility and operational capability, SOLSTICE is a ground-based, ruggedized and transportable system that is able to provide the highest fidelity, cost-effective and flexible tactical Live, Virtual and Constructive (LVC) training solution for Air Defence Ground Environment (ADGE).

### ● MAIN FEATURES

- **Generation of live, virtual and constructive L16 environment**
- **Multi-MIDS capability for low/medium/high altitude and wide area coverage**
- **Integrated multi-sensors tracking system (Radar, ADBS, AIS, GPS logger, ACMI pod) BLOS capability via JREAP**
- **G/A/G Voice Communication System**
- **Multi-role & multi-workstation trainer position**
  - Exercice Control (EXCON)
  - Range Training Officer (RTO)
  - Ground Controlled Interception
  - Joint Terminal Attack Controller
  - Mission planning and briefing
  - Situational awareness & full C2 capabilities
  - Exercices enhancements through simulation
  - Mission restitution
